

Be a community sharps

Safety Stickler

with all used syringes, needles and lancets

✓ DO's of community sharps disposal

DO place community sharps into a sharps container or other appropriate container

DO dispose of containers only into community sharps disposal facilities at:

- participating pharmacies
- community sharps disposal bins
- public hospitals
- needle & syringe program outlets

Contact your council for information on appropriate containers, and the location of community sharps disposal facilities in your area.

✗ DON'Ts of community sharps disposal

DON'T leave containers where young children can reach them

DON'T overfill containers

DON'T dispose of containers into council waste or recycling services because of the high risk of injury to workers
